Pitron ko pani dena by Xpinder Narula

matlab simple calculation

hai ke apne baap ko sex provide karna hota hai aur ladke se sex milta hai ....

yeh universal calculation hai without any alteration........

Is cheez ka yahi reason maana jaata hai ke ladke ko baap hi sabse pyaara hota hai duniya

mein....... Is process mein kisi bhi tarah ka lock nahi hai kahin bhi...........aur process

bani hi sirf isi tarah huyi hai ke sirf apne baap ko hi ladka sex provide karta hai

sirf..........matlab bhagwaan ke level pe yeh process duniya ke design mein hi aise hi

bani huyi hai..........

iska matlab hai ke jise zyada sex karne ka man hai wo

bachche(ladke) zyada rakhe aur uske baap kam hon to better hai.........taake sex kam

provide karna pade........ maa ko udhar se kuch nahi milega par jahan baap hogi wahan

kitne bachche hain uspe depend karega ke kitna sex milega...... ...aur uske aage kitne

baap hain uspe depend karega ke use kitna sex provide karna padega......

Matlab kuch log pooch rahe hain ke wo sex milta kahan se hai.... matlab wahi hai jise tum

apna ladka samjhte ho wahan se milta hai(matlab asli mein ladka ho) aur jo tumhe

apna ladka samajhta ho use provide karna hota hai(jo asli mein bhi ho baap)...... maa ka koi

role nahi hai is calculation mein..........wo jis janam mein khud ladka thi us janam

mein uski family ki kya configuaration thi matlab kitne baap kitne bachche(ladk

e) uspe
depend
karega
sirf.........
...

bachcha(ladk
a) apne baap

ka gaana bhi
sponsor
karta
hai.........

Matlab
bachcha apne
baap ko sex

opportunities isliye provide karta hai kyonke uske baap ne sex kiya tha tabhi wo

paida hua tha..........wo sex opportunities 2 channels se provide kar sakta hai either

direct sex(direct channel) or via porn(indirect channel)....

porn ke case mein partner alag hota hai koi baap se.....par mil baap ko hi raha hota hai uska

fal........do no hi methods theek hote hain equally.........
